

Department of Geosciences Geography Seminar Series Fall 2009

Tuesdays, 4:00 p.m. • 108 Wilkinson Hall
GEO 407 CRN 11340 • GEO 507 CRN 11341

- October 6** • **Julia Jones, Professor**
Department of Geosciences, Oregon State University
Forests, Climate and Water Supply in Cascadia and Patagonia
- October 13** • **Dawn Wright, Professor & Geography Program Director**
Department of Geosciences, Oregon State University
Cracks, Creatures and Creative GIS
- October 20** • **Hannah Gosnell, Assistant Professor**
Department of Geosciences, Oregon State University
Socioecological Resiliency and Rural Communities in the American West: Challenges and Opportunities
- October 27** • **Aaron Wolf, Professor & Chair**
Department of Geosciences, Oregon State University
Water Conflicts and Cooperation
- November 5** • **Sarah Shafer, Research Scientist**
US Geological Survey
Modeling Vegetation Responses to Future Climate
- November 10** • **Larry Becker, Associate Professor**
Department of Geosciences
Are Crop Diversity and Cultural Identity Linked Among the Baoule of Central Cote d'Ivoire?
- November 17** • **Steven Hostetler, Research Scientist**
US Geological Survey
Dynamical Downscaling of Climate for Global Change Applications
- November 24** • **Stephen Lancaster, Associate Professor**
Department of Geosciences, Oregon State University
Heat Budget in the Hyporheic Zone on the Willamette River - Implications for Aquatic Habitat
- December 1** • **Cub Kahn, Instructor**
Department of Geosciences, Oregon State University
Field Photo Techniques: Southwest China and Beyond
