

Forest Genetics 2017

Forest Health and Productivity in Changing Environments

June 26-29, 2017 in Edmonton, Alberta

A joint meeting of WFGA & CFGA

Sponsorship of the *Forest Genetics 2017* conference in Edmonton

The Canadian Forest Genetics Association (CFGGA) and Western Forest Genetics Association (WFGA) welcome corporate and government sponsorships from stakeholders in tree breeding, forest genetics research, policy development, and education.

CFGGA and WFGA represent academics, researchers, tree breeders, seed biologists, students and forestry practitioners involved in genetics and tree breeding in Canada and western North America. Their joint, biennial conference series provides a forum for sharing research results, technology transfer, and broadening the scope of their activities, catering to emerging economic and environmental challenges.

Sponsorship contributions will go toward covering the cost of the meeting facilities, transportation and accommodation for invited keynote speakers, and student sponsorships and awards. Your contribution will be recognized in the conference registration package, posted on the conference website and a number of free registrations, depending on the sponsor category:

Category	Amount	Includes
Platinum	\$5,000+	2 extra registrations & 2 extra banquet tickets + logo display at conference and on web-site + brochure added to registration package
Gold	\$3,000	1 extra registration & 2 extra banquet tickets + logo display at conference and on web-site + brochure added to registration package
Silver	\$1,500	2 extra banquet tickets + logo display at conference and on web-site + brochure added to registration package
Bronze	\$ 750	1 extra banquet ticket + logo display at conference and on web-site + brochure added to registration package
